s of scores are given. The first line reports the average standard score made on each of the
nts in grade 11. These averages are obtained by dividing the total of the standard scores for
test by the number of students taking the test.

s the percent of students in the national standardization sample that scored lower than the
ned by the grade 11 group in Idaho. This line is labeled "Student Norm Pctile." These
based on PERCENTILE NORMS OF STUDENT SCORES.

f This column indicates the number of students in Idaho who obtained the corresponding standard score.

* Percentile Norms for Idaho schools participating in the State Testing Program. The norms are based on 7,060 students in grade 11 in 68 of the 127 high schools in Idaho. Students were tested during the first semester of the 1971-72 school year.

** National Percentile Norms. The normative sample was drawn from all the 50 states and the standardization is based on approximately 10,000 students in grade 11. Students were tested during the 1970-71 school year.

(2) Student Norm Pctile.	55	54	55	55	52	40	44

In Table 2, two lines of scores are given. The first line reports the average scores obtained by Idaho students in grade 11. These averages are obtained by dividing the total number of students taking the test by the number of students taking the test.

The second line shows the percent of students in the national standardization sample who obtained average scores obtained by the grade 11 group in Idaho. This line is labeled PERCENTILE RANKS. The percentile ranks are based on PERCENTILE NORMS OF STUDENT SCORES.

scores are given. The first line reports the average standard score made on each of the tests for grade 11. These averages are obtained by dividing the total of the standard scores for the grade 11 group in Idaho by the number of students taking the test.

percent of students in the national standardization sample that scored lower than the average for the grade 11 group in Idaho. This line is labeled "Student Norm Pctile." These norms are based on PERCENTILE NORMS OF STUDENT SCORES.
